

# 27" High Speed Burnisher

*The perfect burnisher to use as the final step in the concrete polishing process. It connects to any vac for dust-free operation and is specifically designed with an additional front weight and a metal pad holder for the polished concrete industry.*

- ☆ Ultra low profile: 3 3/4"
- ☆ Solid steel body
- ☆ On board dust control
- ☆ Hose connects to SASE Bull 45
- ☆ Emissions monitor shuts down engine if CO levels rise
- ☆ Metal pad holder for heat deflection and flatter pad
- ☆ (2) 13 lb. weights provide additional head pressure and heat generation

## Technical Data

Item Number:	SAS.27BURNISHER
Price:	Call for Quote
Engine:	18 HP 603cc Kawasaki
Ignition System:	12 Volt Battery Starter
Dimensions:	36" H x 50" L x 29"W
RPMS:	1700 rpm
Pad Size:	27" Burnishing Width
Weight:	355 lbs
